Everything was very clear. Everything was very interesting and engaging.

Material order for class should change for better moderation preparation.

The one thing which I think would improve the course is if the quizzes were either short answer or fill in the blank more than multiple choice. The (dry) nature of the material/course makes it easier if there is a chance to write out answers rather than going through the logic internally.

This course was well organized, exciting, included relevant and fun activities, promoted thought and research outside of what was assigned, and the Amy was super well-prepared, energetic, and an amazing teacher in all respects. The course was so so so informative and ~~amazing~~ amazing!.

Easy not bc of teacher but bc of
Subject. Well taught

Course description was clear ~~and~~

This course could have been boring, but Amy
made it stimulating and amusing. One of the
most useful classes I've taken.

The structure was great! BUT I think that material relevant to reading scientific literature and stats should have been covered prior to moderation. Not two weeks after.

The material was understandable, but the exams were very difficult for me - I wish that there had been more class assignments to balance out grading for those who are good students but poor test-takers.

the course was really detailed and thorough and easy to understand.

Amy was the best teacher I've had at Bard. She helped me so much, and was nothing but supportive. She clearly knew all of the materials, and was very well versed in the discipline. Thank you so much Amy! B

Amy was legitimately the best teacher I've ever had. She has taught me so much 

Amy is tough but fair... and a really good teacher. Sometimes I felt that the concepts explained in class were clear and simple, but the tests (the second test) seemed more complex. I appreciated the clear explanations in class! The only other complaint I have is about the textbook which I felt had explanations of ideas that were hard to understand.

Amy is an amazing teacher, well-prepared, brilliant, engaging, available, approachable, and ~~so~~ such a fun teacher! I love her.

to be honest, this class would suck if anybody besides amy taught it. Amy is a great professor, she is one of the best professors in the psych department in my opinion. She's extremely approachable and, yet has a no bullshit attitude. She expects a lot from her students and maintains a great fun relationship with them at the same time.

Amy was great. Made an otherwise difficult & tedious subject fun & enjoyable. Honestly found myself looking forwards to class. A+++

best teacher

all my love

etc.

Although this class was a little challenging content-wise, the instructor made it very interesting and easier to learn. ~~that~~ It was one of my favorite classes 😊

Best teacher at Bard, one thing, however, I wish APA formatting was talked about in a more interactive way.

She was knowledgeable, prepared, and approachable. She helped me given my lack of backgrounds in Statistics, and made the material interesting and fun.

Amazing Instruction. Extremely helpful and obviously ~~interested~~ passionate about her work.
Keep her forever.

You are a phenomenal teacher and person. You are straight forward and clear, which is why I wanted you as my adviser! This class was amazing! My favorite thus far!

Amy is an awesome prof! She's a fair grader and is excellent at communicating the course material to her students!

Amy made what could have been a boring class fun and had lots of life experiences in the field to share that were educational

Amy was able to make not very exciting topics extremely funny!
Her presentations and use of visual aids was appreciated !!

I would have liked to do more presentations.

Amy was extremely helpful at deepening my understanding of methods. I can say that she is an incredible contribution to the research department.

I really enjoyed taking your class and you are a really cool person in general!

very knowledgeable. very helpful and kind
excellent professor.

AMY IS THE BEST PSYCH TEACHER IVE EVER HAD!
she is so easy to understand and is such
a natural teacher. Thank you, Amy!
